

A primer on mixing React and Vega

Framing

- There are *endless* possibilities.
- So, this presentation is:
 - *just a proposal* to organize future projects/prototypes;
 - *a condensed introduction* of technologies that do not usually appear together.

Agenda

1. Toolbox
2. A project folder
3. A simple Renderer (function) component
4. A simple hierarchy of components
5. An example of Visual Regression Testing

Toolbox

- [[Create React App](#), [Vega/Vega-Lite](#)]
- [VS Code ES7 React/Redux/React-Native/JS snippets](#)
- [[Vega-Embed](#), [Vega Tooltip](#)]
- [[jest-image-snapshot](#), [jsdom-screenshot](#), [jest-transform-css](#)]

To the app! 🦇
